## Draw Pictograms (2, 5 and 10)

The children from Twinkl Academy have been collecting data about their favourite safari animals.
Anna and Raj are talking about how best to represent this data in a pictogram.

|  | Tally |
| :---: | :---: |
| Lion | HH HH HH HKH |
| Elephant | HH HI HH HI HK HH HK HK |
| Buffalo | HH HK HH HK HH HK HH HI HH HE HH HE HH HH HH HK |
| Rhino | HI HE HI HE HE HE HE HE HE HE HH HE HE |
| Leopard | HH HI HK HI HI HE HK HE HH HK |

$$
\begin{array}{c|c}
\hline \text { I think each } & \text { I think each } \\
\text { symbol should } & \text { symbol should } \\
\text { represent } 10 & \text { represent } 2 \\
\text { children. } & \text { children. }
\end{array}
$$

Who do you agree with? Explain why.

What other scales could be used?
